United Kingdom ([PRWEB](#)) June 05, 2017 -- Wealth & Finance magazine have announced the winners of the 2017 Alternative Investment Awards. SAIL Capital of Newport Beach, CA has been awarded Most Innovative Sustainable Investment Firm 2017 (Energy & Water) & Recognised Leader in Global Resource Investing 2017.

Previously an undervalued industry, the alternative investment has grown immensely over the past few years. Behind the ever-growing success are the leading lights whose innovation, dedication and inventive ways has seen them accomplish some remarkable results. SAIL Capital has been a pioneer and thought leader in impact/alternative investing since the early 2000's under the leadership of Founder and CEO Walter Schindler.

In order to achieve greater impact as an investor in this space, this year SAIL has created "SAIL Global Advisors, LLC," a new investment advisory business in a new legal entity that allows clients to benefit from its expertise in both law and corporate finance and its team's knowledge of diverse areas of sustainable investment. SAIL Global Advisors will focus on advising large global investors on unique energy, water and infrastructure projects with extraordinary results for its clients.

Now in its fourth year, the 2017 Alternative Investment Awards casts a light on the individuals, firms and departments from across all sectors that have played a part in shaping this dynamic and imitable industry.

Commenting on the program Awards Coordinator Peter Rujgev said: "From multinational companies to individual investors, these awards showcase the talent and commitment of everyone working within this industry, investing in everything from collectable items, fine art and wines through to property and precious metals, whose hard work and professionalism is changing the financial landscape for the better. I would just like to congratulate all of my deserving winners and I hope to hear about their upcoming endeavours moving forward."
