**Walter Schindler to participate in Environmental Investment Opportunities panel during the European Summit on Corporate Governance & Responsible Investment**

June 1, 2009. Stockholm, Sweden. Walter Schindler, Managing Director of SAIL Venture Partners, is scheduled to participate in a panel discussion during the 8<sup>th</sup> Annual European Summit on Corporate Governance and Responsible Investment in Stockholm, Sweden on June 8<sup>th</sup>. The panel, titled "Keeping Climate Change in the Forefront: Investment Opportunities in Environmental Solutions" will explore global clean tech investment opportunities. Discussion topics will be centered around defining the investment universe for green strategies, identifying environmental investment themes, including- water, alternative energy, climate change, agribusiness and carbon trading, considering green investing as part of a global equity strategy and the opportunities and pitfalls associated with investing in this area. Also on the panel are Amanda Haworth Wiklund, Director of the Carbon Disclosure Project (CDP) Nordic Secretariat, Eric Gelfgren, Director of Bank Sarasin AG, and Paul Udall, Managing Director and Portfolio Manager of Global Equities for Climate Change Capital.
